

Dragon with wings

Design: Duccio Di Segna

Dimensions

15"W

Description

Masterfully crafted from the world-renowned crystal of Colle Val d'Elsa, this striking sculpture depicts a majestic Dragon in mid-flight, wings unfurled in a dynamic display of power and grace. The transparent crystal captures and refracts light with mesmerizing brilliance, accentuating the intricate detailing of the scales, talons and sinewy form.

Every curve and contour reflects the artisanal precision and heritage of Tuscany's famed crystal-making tradition. This timeless piece merges myth and craftsmanship, embodying strength, elegance and the ethereal beauty of fine Italian crystal. Made in Italy.
