

Elephant King

Design: Duccio Di Segna

Dimensions

Elephant King Down: 8"5/8H

Elephant King Up: 11"7/8H

Description

Commanding yet serene, this exceptional Elephant King sculpture is masterfully formed from the pure crystal of Colle Val d'Elsa, long regarded as the pinnacle of Italian glassmaking. With its noble bearing and intricately crafted details, this piece captures the grandeur of the elephant not only as a symbol of wisdom and strength, but as a sovereign presence.

Crowned with subtle authority, the figure exudes quiet power, each facet of crystal refracting light with extraordinary clarity and depth. More than a sculpture, this is a statement of legacy and refinement, destined for a private collection of sophisticated and meaningful works. Made in Italy.
