

Flamingo Giant

Design: Duccio Di Segna

Description

Sculpted with extraordinary grace and scale, this Giant Flamingo is a radiant masterpiece made of Colle Val d'Elsa crystal, renowned for its unparalleled clarity and artisanal excellence. Towering in elegance, the flamingo's elongated form and fluid curves are captured in exquisite detail, embodying both the delicacy and presence of this iconic bird.

Light dances across the crystal surface, illuminating its slender silhouette with a soft, luminous glow. More than a sculpture, it is a symbol of poise and sophistication, ideal for grand interiors and collectors who seek the rare and remarkable. Available in the versions with head up and head down. Made in Italy.
