

# Giant Dolphin

*Design: Duccio di Segna*

## *Dimensions*

19"5/8H

## *Description*

With its majestic form and luminous presence, this imposing dolphin sculpture captures the thrilling beauty of the ocean in a unique and enveloping gesture. Sculpted from the finest Colle Val d'Elsa crystal, the piece features a powerful dolphin gracefully arching over a stylized wave, its body sculpted with fluid precision and radiant clarity.

The wave, frozen in an instant of movement, serves as both pedestal and poetic counterpart: its flowing lines evoke the natural rhythm of the sea. More than a decorative object, this sculpture is a statement of artistry and emotion, the embodiment of freedom, strength and grace, rendered in timeless crystal. Made in Italy.
