

Jellyfish

Design: Duccio di Segna

Description

A captivating representation of underwater elegance, this Medusa sculpture is a true statement of luxury and artistic refinement. Masterfully handcrafted from illustrious Colle Val d'Elsa crystal, renowned for its unparalleled clarity and brilliance, the piece evokes the ethereal beauty of the ocean's most fascinating creature.

Suspended in a graceful motion, the jellyfish's rattle features a delicate curve, while its tendrils cascade with sculptural fluidity, capturing the serenity of underwater movement. At once mysterious and majestic, this sculpture is more than a decorative object, is a luminous work of art, created by the master glassmakers of Tuscany. Made in Italy.
