

Nautilus Crab

Design: Duccio di Segna

Dimensions

9"3/8W

SET OF 3 NAUTILUS CRABS:
Yellow + Transparent + Green

Description

An exquisite interplay of form and color is presented in this set of three Nautilus Crabs, each unique in hue, yet united by their graceful marine spirit. Crafted from the famed Colle Val d'Elsa glass, long considered the heart of Italian glass craftsmanship, these sculptural treasures capture the delicate complexity of marine life with exceptional delicacy.

Each crab is a study in contrast and harmony: the crystalline clarity of the material enhances the intricate details of the nautilus-shaped carapace and shell, while distinctive color variations add individuality and depth. Together, the three figures, evoke both the rhythm of the sea and the serene sophistication of masterful craftsmanship. This elegant set is a refined celebration of nature's geometry and the enduring legacy of Colle Val d'Elsa crystal. Made in Italy.
