## *Description*

Immerse your space in the charm of Tuscan splendor with this enchanting trio of feathered baby elephant sculptures, each carved from legendary Colle Val d'Elsa crystal. Celebrating the purity and brilliance that only Italian crystal can offer, these miniature marvels capture the joyful spirit and majesty of elephantine grace.

Together, the three pieces symbolize unity, growth, and the promise of a new beginning—a tribute to the bonds of family and the gentle strength these creatures represent. Perfectly placed on a marble pedestal or in a bespoke display case, this glass trio is more than just a decorative element: it's an investment in art and heritage. Made in Italy.
