SET OF 2: One rabbit + Carrot

Description

Exquisitely refined, the Rabbit and Carrot sculpture set is a luxurious celebration of nature's charm, crafted from radiant crystal from Colle Val d'Elsa, the heart of Italy's fine glassmaking tradition. The rabbit, with its perked ears and watchful gaze, radiates sweet curiosity and innocence, while the elegantly sculpted carrot offers a playful counterpoint, crafted with surprising grace and precision.

Together, they form a narrative of desire and delight, an artful interplay of character and form. The impeccable clarity and brilliance of the crystal, which catches the light, elevate the simplicity of the object into a sophisticated composition, full of personality and refinement. A unique addition to any space that invites both admiration and a knowing smile. Made in Italy.
