Description

Graceful and serene, this Rabbit sculpture Set is a refined expression of tenderness and tranquility, brought to life in the luminous crystal of Colle Val d'Elsa. Comprised of two small rabbits and a larger figure, this elegant trio is handcrafted by master artisans in Tuscany, the historic heart of Italian glassmaking.

Each rabbit is sculpted with minimalist purity and poetic charm. The two smaller figures nestle in serene stillness, while the larger rabbit rises slightly, protective and serene, embodying the gentle guardianship of the family. Whether displayed on a polished surface or within a designer showcase, the ensemble radiates understated luxury: a subtle nod to nature, elegance and connection.

Made in Italy.
