Description

Delicate in form and rich in symbolism, the Rabbit and Egg sculpture set captures the essence of renewal, innocence and serene elegance. Comprised of a small, finely sculpted rabbit and two perfectly rounded eggs, this trio is meticulously handcrafted from prestigious Colle Val d'Elsa crystal, a hallmark of Italian excellence, born in the artisanal heart of Tuscany.

The rabbit, with its soft curves and serene posture, evokes purity and attentiveness. The two crystal eggs, minimalist and luminous, complement the composition with profound symbolism, representing new beginnings, abundance and the natural cycle of life. Together, the three pieces form a harmonious vignette, visually soothing and conceptually meaningful. Made in Italy.
