## *Description*

A serene homage to new beginnings and lasting bonds, the Rabbit and Egg sculpture set is a refined ensemble of three exquisitely crafted pieces: a small rabbit, a large rabbit and a luminous egg, each sculpted from world-famous Colle Val d'Elsa crystal. Crafted in the heart of Tuscany, this crystal is renowned for its unparalleled clarity, brilliance, and artisanal tradition.

Together, the forms create a harmonious narrative: subtle, symbolic and deeply evocative. As the light dances through the crystal, each piece refracts with a soft glow, casting delicate reflections that enhance the serene beauty of any setting. Whether presented as a seasonal accent, a meaningful gift or a timeless collectible, this set speaks to the quiet luxury of artisanal excellence. Made in Italy.
