Description

Elegant in form and tender in spirit, the Rabbit sculpture set is a refined combination of two crystal pieces: a medium and a small rabbit, each meticulously handcrafted from luminous Colle Val d'Elsa crystal, the crown jewel of Tuscan art.

With soft curves and a graceful posture, the rabbits evoke a tranquil dialogue between generations: a tender moment of stillness captured by light. The medium rabbit radiates calm, while the smaller figurine rests beside it with subtle affection, symbolizing protection, guidance and familial closeness. This sculptural duo offers timeless charm and poetic simplicity: a celebration of nature, harmony and Italian craftsmanship. Made in Italy.
