Description

Elegant and artfully composed, this distinguished trio features two majestic cats and a noble mouse, each sculpted from the luminous crystal of Colle Val d'Elsa, the historic Italian center of fine glassmaking.

With graceful silhouettes and delicate details, the Big Royal Cat exudes serene authority; and paired with the medium-sized cat, their crystalline forms capture both feline refinement and aristocratic charm. Between them stands the Royal Mouse, small but full of character, bringing a playful balance to the ensemble. Refined yet full of personality, this set is a celebration of craftsmanship, imagination, and the timeless elegance of the art of glassmaking. Made in Italy.
