+ Mouse medium white & gold**

## *Description*

Charming in form yet sophisticated in execution, this set of two mouse sculptures is meticulously crafted from radiant crystal from Colle Val d'Elsa, Italy's legendary center of fine glassware. Each mouse reflects curiosity and attentiveness, rendered with exquisite detail and elegant simplicity.

From the gentle curve of their tails to the lucid tilt of their ears, every line is hand-finished by Tuscan artisans, transforming these tiny creatures into refined works of art. Together, they create a subtle dialogue of movement and stillness, an elegant balance between joy and poise. Made in Italy.
