### *Description*

An imposing symbol of pride, vigilance and noble presence, the Royal Rooster sculpture is an exquisite work of art, masterfully sculpted in pure Colle Val d'Elsa crystal, a hallmark of Italian crystal craftsmanship.

The rooster, long revered as a herald of dawn and guardian of light, is presented here in a lofty, almost regal posture. The sculpture's dynamic silhouette is both bold and refined, expressing confidence and clarity in every curve and contour.

Whether positioned as a centerpiece, a symbol of leadership, or as an art object in a curated collection, the Royal Rooster brings quiet authority and timeless beauty. Made in Italy.
