Description

A poetic homage to the serene elegance of nature, this set of three snail sculptures is masterfully crafted from luminous Colle Val d'Elsa crystal. Each piece in the trio subtly captures the slow, graceful movement and serene presence of these often overlooked garden inhabitants. The interplay of smooth, transparent surfaces with delicately rounded shapes creates a soothing and sophisticated visual harmony.

Whether presented together as a meditative composition or individually as refined decorative details, this set embodies the timeless artistry and craftsmanship that define Colle Val d'Elsa's renowned crystal-making tradition. Made in Italy.
