

Snake

Design: Duccio di Segna

Description

A symbol of transformation, wisdom, and silent power, the Snake sculpture is a striking embodiment of fluid elegance, masterfully sculpted from pure Colle Val d'Elsa crystal. Crafted in the heart of Tuscany, where centuries of crystal artistry merge with modern refinement, this piece transforms the ancient mystique of the serpent into a luminous sculptural work of art.

The serpent is presented with graceful, flowing lines that suggest movement and control. A piece that is both sensual and sculptural, minimalist in design, yet rich in symbolic depth. A refined sculpture that evokes mystery, elegance and serene strength.

Made in Italy.
