Description

This charming set of 2 Squirrels sculptures is delicately crafted from luminous Colle Val d'Elsa crystal. One squirrel gently cradles an acorn in its finely sculpted paws, while the other stands beside it, its gaze inquisitive and warm. Together, they evoke a moment of serene connection and natural harmony, brought to life through exceptional craftsmanship.

Every contour is meticulously carved: the arched backs, waving tails, and perked ears glow with a soft inner glow. A celebration of both the playful spirit of woodland life and the refined artistry of Italian crystal, this sculpture is a timeless expression of grace, detail, and elegance. Made in Italy.
