

Almeria

Design: Antonio De Marco

Description

This set of four hand-woven baskets from the Almeria collection brings refined texture and functional design to any space. Crafted from eco-friendly, washable, and highly resistant regenerated leather, each basket is suitable for both indoor and outdoor use—resistant to light and water. The set includes different sizes: from a small basket ideal for organizing smaller items, to a spacious large basket with handles—perfect for holding towels, shoes, or blankets by the pool or in the entryway. The medium version, also with handles, is great for everyday storage, while the small oval basket is ideal for neatly storing essentials. Made in Italy.
