

Almeria

Design: Antonio De Marco

Description

This set of four hand-woven baskets brings refined texture and functional design to any space. Crafted from eco-friendly, washable, and highly resistant regenerated leather, each basket is suitable for both indoor and outdoor use—resistant to light and water.

The set features a mix of round and oval shapes in thoughtfully chosen sizes: the extra-small round basket is perfect for organizing smaller items or adding a subtle decorative accent to shelves or countertops, while the small round basket offers extra depth, making it ideal for towels, slippers, or personal care essentials. The small oval basket is perfect as a wood holder or for neatly storing items in bathrooms, spas, or yacht decks. Completing the set, the big oval basket is well suited for larger storage needs, such as blankets, shoes, or poolside accessories. Made in Italy.
