Description

Foosball table with structure in solid molded wood. Shell perimeter in crystal. The vertical plates are tempered glass; the curved ends have undergone a hot bending process. Every component is polished with cerium oxide. Rod ends featuring two layers of shock absorption. Rods are equipped with special, self-lubricating bearings so that they slide back and forth quietly, smoothly and quickly. Quick mount handles that fit perfectly and can be removed and replaced. Playing field in tempered clear crystal, increasing the game's speed. Goals with polished stainless steel frames and handcrafted nets. Hidden, adjustable feet for leveling table. Made in Italy.
