

TAKTO Adagio 03

Design: Alessandro Rigotto & Gianfranco Barban

Description

Adagio is a floor pendulum clock combining precision mechanics with sculptural form. It features a 7"7/8 Invar pendulum rod with a 6.5 kg (14.33lbs) stainless steel lens, graduated bezel, and adjustment weights for fine regulation. A Graham escapement and 30-day power reserve drive the movement. The mechanism is housed in 15 mm extra-clear tempered glass, framed in White Covelano or Black Marquina marble with a milled aluminum top. Palladium-coated brass gears, CNC-mounted bearings, and a ruby-tipped crutch ensure exceptional accuracy. Includes Teckell® Tool Kit and Certificate of Authenticity. Made in Italy.

Dimensions

30"W x 13"D x 88"5/8H
