Description

American Made Since 1988- The WaterRower Oak Original Series rowing machine is handcrafted in solid wood finished in Danish oil. It features the S4 Performance Monitor.

Wood is an excellent material for this application due to its ability to absorb sound and vibration enhancing the WaterRower's smooth, quiet operation. It features patented WaterFlywheel technology, unrivaled in its replication of the resistance felt in on the water rowing.

The WaterRower comes standard with our S4 monitor, providing a robust assortment of in-workout performance data and advanced training features. Enjoy a quick-start workout session or delve into our assortment of time, distance and advanced zone training workouts to reach your training goals.
