

Opéra

Design: Philippe Nigro

Description

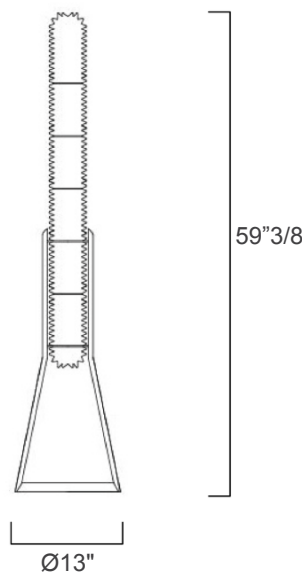

Inspired by the Opéra Garnier, it stands out for its eclectic, decorative character, expressed in stylistic mixtures and remarkable compositional balance. The references to a certain Baroque splendor are tempered by more minimal, contemporary touches, generating a delicate, harmonious dichotomy. The design challenge was to bring out the artistry and heritage of the company, a repository of the art of glass for over seven centuries. The outcome of this creative effort is a timeless, elegant design, rich but not redundant, with a direct, incisive personality.

The main feature chosen by Nigro for the collection is the rostrato. This complex technique of craftsmanship, patented by Barovier&Toso, was invented by Ercole Barovier in 1938 and consists of "freehand" shaping of Venetian Crystal to obtain a continuous series of multi-faceted prisms. UL listed lighting. Made in Italy.

Dimensions

Ø13" x 59"3/8H - Cd. 7392-00

1 LED Strip included x 32W - Dimmable

Finishes & Materials

Murano Structure: Venetian Crystal.

Structure & Details: Metal.
