

14

Description

Reimagined for Bocci's 20th anniversary, 14 Geometric transforms the iconic 14 Series, extending their trademark suspension styles and offering an alternative to existing configurations. 14 introduces geometric composition as a new way to mount Bocci's first catalogue piece, rethinking how these forms interact with spaces and extending the installation possibilities.

The 14 Series uses a coaxial cable suspension system, and each pendant includes 118"1/8 of coaxial cable, which can be adjusted on site. If additional coaxial cable is required, the extension will apply to all pendants in the configuration, and the upcharge will be calculated accordingly.

Each pendant is attached to an individual mini canopy, requiring a new build/suspended ceiling with remote mounted power supplies. Remote mounted power supplies are recommended for ease of long term maintenance. Installation to be done by certified personnel to ensure code compliance.

Finishes & Materials

Pendant: Cast, blown borosilicate glass.

Coaxial Cable: Braided metal.

Canopy: Steel.

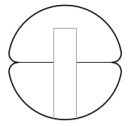

Dimensions

Pendant: Ø4"

Canopy per pendant: Ø3/4" (Mini Flush Mount)

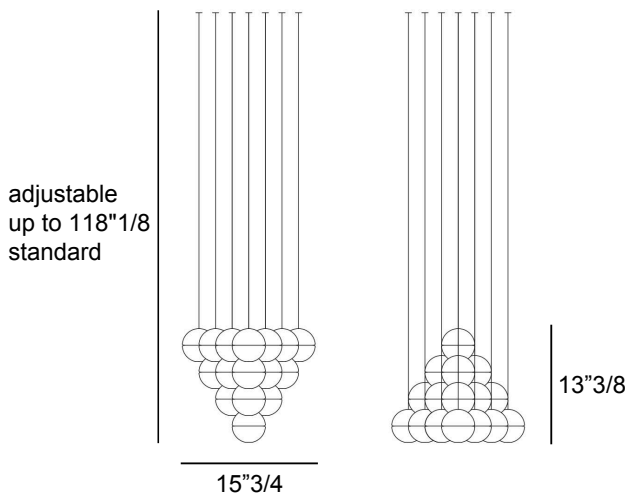

Adjustable Cable: 118"1/8H

Pendant

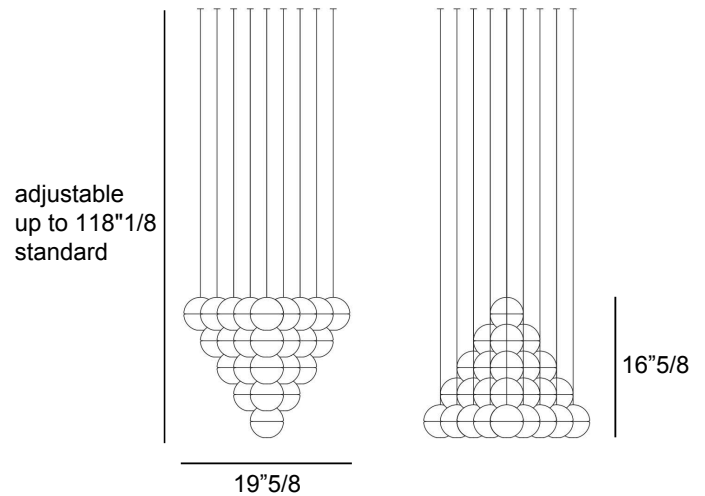

Ø4"

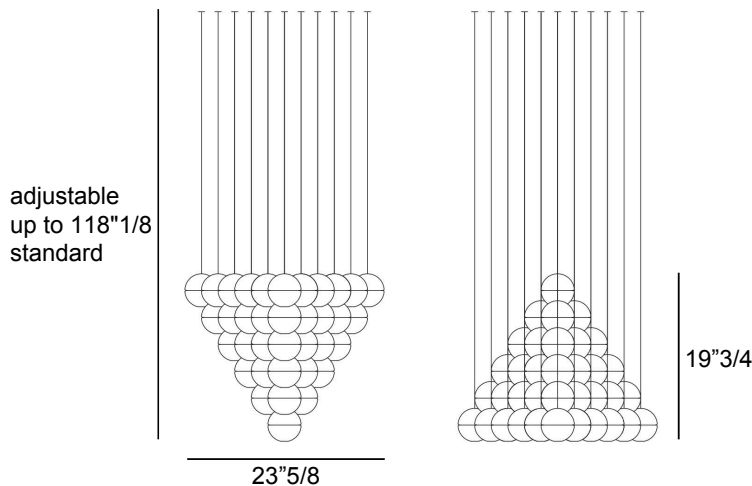

19 pendants (14.19m)

31 pendants (14.31m)

46 pendants (14.46m)

Standard Coaxial Cable Length:

- 118"1/8

Extra Coaxial Cable Lengths

(Standard Length + 118"1/8 Increments):

- 236"1/4
- 354"3/8
- 472"3/8
- 590"1/2
- 708"5/8
- 826"3/4
- 944"7/8
- 1063"

Specifications

Mounting: Ceiling mounted.

Lamp: 1W LED 110V-120V - 100lm - 2500K / 2700K / 3000K

Dimmable.

Coaxial Cable: 118"1/8 standard - Adjustable length up to 1063" max.

Power Supply: Remote mounted.

Bocci recommends remote mounting power supplies for ease of long-term maintenance.
