

## Body Bookend

*Design: Duccio di Segna*

### *Description*

A refined fusion of form and function, this distinguished set of bookend sculptures features the serene silhouettes of a man and a woman, each delicately sculpted in radiant Colle Val d'Elsa crystal. Together, they embody balance and harmony, offering a graceful interpretation of duality and timeless elegance.

With subtle details and soft, fluid contours, the male and female figures are presented in a minimalist and evocative style. Whether enhancing a library or adorning a refined interior, this pair brings understated sophistication to any space, where beauty and purpose are in perfect balance.  
Made in Italy.
