## *Description*

Delicate yet enduring, this refined set of two crystal leaf sculptures offers a timeless interpretation of the serene elegance of nature. Crafted from the pure and radiant crystal of Colle Val d'Elsa, Italy's historic center of fine crystal, the set includes a large and a medium leaf, each elegantly placed on a clear base that enhances their sculptural yet light presence.

Balanced in scale and proportion, the pair creates a harmonious composition, ideal as a centerpiece or decorative element in refined interiors. Made in Italy.
