### *Description*

Delicately sculpted in radiant Colle Val d'Elsa crystal, here is an elegant pair of Sea Stars, symbols of renewal, balance and the serene poetry of the sea. Each shape is rendered in exquisite detail, showcasing the natural symmetry and gentle curvature of the starfish in a composition that feels organic and timeless.

In harmony, the two starfish, create a visual dialogue of scale and rhythm, embodying the elegance of nature interpreted through centuries-old Italian craftsmanship. A refined homage to the subtle wonders of the sea, ideal for collectors and lovers of marine-inspired decor. Made in Italy.
