SET OF 2:

Seal On Ball +

Seal On Ball With Little Gold Ball

Description

A charming duo of balance and movement, a refined ensemble of two seals captured in joyful equilibrium, each elegantly perched on a crystal sphere. Masterfully sculpted from the pure crystal of Colle Val d'Elsa, Italy's historic center of fine glassmaking, these figures combine whimsy with artistic refinement.

One seal holds a small ball gently balanced on its tail, adding a charming touch of animation and asymmetry to the composition. The other, in a classic pose, captivates the viewer with its serene elegance. Together, the pair evokes a sense of joyful companionship and movement, captured with the precision and grace of centuries-old Italian craftsmanship. Made in Italy.
