

Shark In Pairs

Design: Duccio di Segna

Dimensions

19"5/8H

Description

Sculpted in radiant Colle Val d'Elsa crystal, this striking pair of sharks embodies the serene strength and grace of the ocean's most iconic predators. Captured in fluid motion, the two figures glide in unison, one slightly ahead, the other in close pursuit, suggesting independence and synchronicity beneath the waves.

Each shark features elegant, flowing lines and refined attention to anatomical detail, from the sweeping curve of the fins to the tapered shape of the tail. Whether as a centerpiece or a detail of subtle power, this crystal pair evokes elegance, resilience, and the beauty of the sea in perfect harmony. Made in Italy.
