

Tiger Shark

Design: Duccio di Segna

Dimensions

19"5/8W

Description

Crafted in the heart of Tuscany from renowned Colle Val d'Elsa crystal, here is a masterful representation of the Tiger Shark, an emblem of quiet power and refined aquatic grace. With fluid lines and a commanding silhouette, the sculpture captures the essence of this majestic marine predator in motion.

The precisely cut crystal reveals subtle anatomical nuances: the gentle arc of the body, the elegant taper of the fins, and the serene determination of its momentum. This piece fuses contemporary minimalism with timeless craftsmanship. Striking yet serene, it brings the untamed beauty of the sea into a space with grace and sophistication. Made in Italy.
