

Floria

Design: Pierre-Yves Rochon

Description

Lounge table with marble top, available in various finishes. The top is characterized by a shape reminiscent of a flower, with a curved cut, meticulous milling and detailing in the corners. The under-top, lacquered in titanium, overhangs deliberately from the top. Also in this part, the corners are enriched with milling that recalls the shape of a flower. Then there is a connecting element between the top and the base in pewter painted metal. The legs structure is made of MDF panels that create the desired shape, supported by a metal support structure. The legs are then covered in leather. The base is made of pewter painted metal. Four feet underneath to protect the floor from scratches or damage. Made in Italy.
