*Design: Giorgetti R&D*

**GIORGETTI**  
*Maresati* EDITION

### *Description*

Lounge chair available in two variants. One option features two rigid polyurethane shells, upholstered entirely in leather and characterized by a dynamic and refined stitching that is as aesthetic as it is technical. There is an insert on the perimeter profile of the shell and an insert on the back of the seat, which can be in leather or flexible wood.

The second variant has two shells, again in rigid polyurethane, lacquered in a glossy white finish, with an insert exclusively in leather, only on the back of the seat. The padding of the seat is in polyurethane foam, with a belted insert, padded with fibers. A cut polyurethane pad is integrated into the foam to further improve comfort. The backrest cushioning is made of cut polyurethane, covered with a layer of polyester fibers for added softness and seating comfort. The backrest cushions are removable.

Made in Italy.
