

Moorea

Design: Carlo Colombo

Description

Lounger designed with an extremely high standard of materials for outdoor use, to meet different contexts. The entire structure is made of AISI 316L Pewter painted stainless steel, chosen to guarantee a particular resistance to corrosion in different environments, thanks to the composition of the main alloy elements. In order to ensure reliability, the mechanical fasteners between the parts are also made of stainless steel. Solid teak wood inserts in a natural finish, a wood that is highly esteemed for its technical and aesthetic qualities. Equipped with two wheels on the headboard to assist movement and a manual mechanism that allows the backrest to be adjusted to four different positions. The adjustment is facilitated by a fabric loop. The cushioning is in open-cell draining rubber. Completely removable upholstery with fabrics from the Open-air collection. To support the mattress, a structure of fiberglass reinforced polypropylene slats guarantees elasticity and constant resistance over time. Covering is recommended in case of rain. A matching headrest, with open-cell draining rubber padding and a fabric band is available on demand. Made in Italy.
