

Clifford

Design: Ervas Basilico Girardi

Description

Dining table with solid Canaletto walnut or ash base. Top in polished natural marble (3/4"th.) or in tempered clear, transparent bronze or smoke glass (3/8" or 1/2"th.) with electro welded supports.

The Clifford dining table is a harmonious blend of sculptural strength and visual lightness. Its bases, with soft and sinuous shapes, sculpt the space with balance and personality, becoming protagonists of the environment. Clifford is designed for living areas and executive spaces where design and materials come together in a perfect dialogue of form and finish. Made in Italy.
