

Central Round

Design: Francesco Forcellini

Description

Central Round is a stylish wall mirror flaunting an extremely original structure: two panels slightly tilted outwards form a base on which a third round element is placed centrally. All three elements are available in mirror, smoked or bronze and can be combined with each other, allowing tone-on-tone or two-color combinations. A refined contemporary complement, perfect for innovative interiors. Made in Italy.

Finishes & Materials

Mirror: Mirror, smoked mirror or bronze mirror.
