

Trench

Design: Philippe Malouin

Description

Trench Collection embodies Philippe Malouin's vision for Acerbis: sofas and armchairs that reinterpret the concept of upholstered seating with new proportions. Its pure, almost ancestral form exudes a sculptural presence, yet astonishes with its exceptional comfort -defined by a single fluid curve shaping both the seat and backrest. Trench achieves a striking sense of visual lightness, accentuated by its seemingly suspended structure, elevated on two legs set perpendicularly to the frame. Made in Italy.

Finishes & Materials

Cover: Fabric.
