

## Fiocco

*Design: Martino Gamper*

### *Description*

Fiocco is a creation that embodies the elegance of expertly crafted wood. Made from carved wood, with solid Elm and Walnut edges, every detail speaks to the care and passion of craftsmanship that honors the tradition and natural beauty of the material. The edges of the curves, handworked using the multilayer technique, lend the structure a soft, almost lifelike sinuosity, inviting touch and admiration of each line. The veneer on the headboard fronts is double-layered, adding solidity and ensuring durability, as well as a fuller, richer appearance. The fluid motion of the headboard is made possible by concealed hinge mechanisms, providing a unique smoothness. Beneath the structure, two caster wheels add practicality and mobility, making every movement simple and effortless. The shelves, suspended yet securely anchored to the headboard, blend seamlessly with the whole, combining functionality and beauty in perfect harmony. The wood surfaces are treated with fine oil, preserving their natural beauty and enhancing their longevity. Each headboard is carefully numbered, like an exclusive work of art, destined to tell a unique story. Bed base NOT Included. Made in Italy.
