Design: Bernhardt & Vella

Description

Light lines, bold spirit, and an elegance that nods to the retro aesthetic. The Catarina lounge chair enlivens any space with fresh, sophisticated energy.

Inspired by furniture from the 1950s and 60s—particularly Gio Ponti’s lounge chair with their feminine, rounded forms—Catarina strikes a perfect balance between soft curves and defined, sharp lines. This harmony is further emphasized by its solid walnut legs, which are rounded or oval to echo the interplay of masculine and feminine elements. The distinctive three-legged design enhances the sense of lightness, creating an airy presence that is more difficult to achieve with four legs.

Catarina has a lively personality, bringing vibrancy and charm to interiors—distinctive yet never excessive. A contemporary icon with a retro soul: light in form, bold in character. Its rigid leather shell embraces with grace, shaping a silhouette reminiscent of a petal’s delicate lightness, while three slender wooden legs lend an airy, dynamic touch.
