

Dune

Design: Marco Fumagalli

Description

Like the seabed shaped by ocean currents, dune tells a story of shadows and reliefs—a sinuous movement that captures light and transforms it into pure visual emotion. Materiality meets the lightness of design, evoking the delicate patterns of sand sculpted by water. The engraved surfaces add depth and dynamism, while the linear structure blends seamlessly with the sculptural effect of the doors, creating a perfect balance between minimalism and tactile allure. Dune is more than just furniture; it is a domestic landscape, a dialogue of elegance and movement that transforms any space into an immersive and sophisticated environment.

Only for size “B”, it is possible to add up to four optional internal drawers, each with a leather-covered front panel.

Made in Italy.

Finishes & Materials

Top: Veneered wood or Ceramic.

Structure: Multi-laminated wood.

Front & Side Panels: MDF.

Upholstery: Leather.

Internal Shelves: Glass.

Base: Lacquered wood.
