

Samoa

Design: Luca Erba

Description

A perfect balance of strength and lightness, material and form — a sculptural masterpiece that transforms its surroundings with a bold yet elegant presence. Its fluid, timeless harmony is designed to elevate and enrich every shared moment. The solid, architectural base draws the eye: an imposing yet dynamic structure that offers stability without overpowering the space, creating a captivating interplay of volumes and proportions.

Beautiful from every angle, Samoa is a table to be both lived and admired — where architecture meets functionality in a refined dialogue between aesthetics and design. A true focal point, it embodies conviviality and timeless style.

Inspired by the principles of purist art, the Samoa table stands as a piece of micro-architecture. Its design embraces essential lines, defined volumes, and the absence of superfluous ornamentation. Pure shapes and soft curves create shifting shadows that accentuate the leather base, while the top introduces a tactile counterpoint to the minimalist elegance of the forms, resulting in a harmonious conversation between material and volume.

Made in Italy.

Finishes & Materials

Top: Multi-laminated veneered wood or Ceramic.

Under Top: MDF in lacquered Matt RAL color.

Base Structure: MDF with a metal bar.

Base Upholstery: Leather with special raw cut edges.
