

Corallo

Design: Studio in Project

Description

The design takes inspiration from the organic curves of coral islands, capturing both balance and movement in its circular form. The hand-ground finish adds a refined texture, shimmering like sunlight reflected on warm waters. When illuminated, the lamp radiates a soft brilliance, offering not only functional light but also a distinctive decorative presence that enriches any interior with elegance and depth.

In Size A, composed of three disks, two can be chosen in one finish and the third in another. In Size B, featuring six disks, these are arranged in three pairs, each of which can be selected in different finishes. Made in Italy.
