

## Le Perle

*Design: Alberto Ghirardello*

### *Description*

Borosilicate spheres, available in straight or twisted ribbed textures, cascade in perfect rhythm from above. A composition that appears simple yet reveals complexity in its details—like a luminous necklace of pearls suspended in midair, radiating elegance across the space. Each version can be customized by choosing a different texture and finish for every sphere. In the big + small size, two spheres can share one texture and finish while the third may be selected in a contrasting option—creating unique and personal compositions. Made in Italy.
