

Linea

Design: Michele Losito

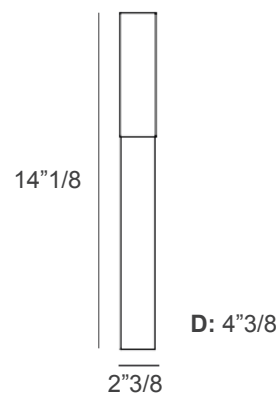

Description

A continuous line that extends beyond boundaries, a luminous point captured in motion. On the wall, its brilliance flows where the glass ends and the horizon begins. The design combines sculptural presence with versatility: an adjustable spotlight with rotation up to 270 degrees, allowing the light to be directed with precision and elegance. Made in Italy.

Light source: 1 LED star 4,5W - 4000°K - 12 Vdc
- SMD z5m2 - 440 lm - lifetime 30.000 h -
Dimmable - Energy Efficiency: E

Dimensions

2"3/8W x 14"1/8H x 4"3/8D

Finishes & Materials

Structure: Iron.

Bushings: Aluminum.

Tube: Borosilicate glass.
