

Bonnet

Design: Odo Fioravanti

Description

With its elegant sinuous shape and its high-end frame made of painted die-cast aluminum, Bonnet is a sophisticated LED lamp that reworks the concept of indirect lighting. The top part conceals a small yet very powerful LED source whose ray of light is mainly directly upwards onto the wall and ceiling. The designer also wanted to play with the parasite light that is normally lost, recuperating it with a lens and directing it downwards. In this way, Bonnet not only lights itself up but also produces a refined downwards glow. Made in Italy.

Light source:

LED 18W (2700K, CRI>80, 2300Lm)
Integrated LED

Dimensions

Ø7" x 11"7/8H
