

## IO

*Design: Claesson Koivisto Rune*

### *Description*

In the shape of a small curved lunar disc, IO is a wall lamp with dual LED light emission and painted metal frame. IO appears almost suspended, very close to the wall but never close enough to touch it; positioned at a distance that allows the light to gently caress the wall with an intimate skimming effect.

Thanks to its dual-axis rotation frame, it has the distinguishing feature rotating on both longitudinal and transverse axes, for total light management. The Up/Down movement on the external diffuser widens and narrows the ray of light. Made in Italy.
