

## Moorea

*Design: Carlo Colombo*

### *Description*

Two seater sofa made with an extremely high standard of materials for outdoor use, to meet different needs and contexts. The entire structure is made of AISI 316L Pewter painted stainless steel, chosen to guarantee a particular resistance to corrosion in different environments, thanks to the composition of the main alloy elements. In order to ensure reliability, the mechanical fasteners between the parts are also made of stainless steel. The structure is enriched with solid Teak wood elements in a natural finish, a wood that is highly esteemed for its technical and aesthetic qualities. The upholstery, with multi-densities foam, is made of open-cell draining rubber, allowing water and humidity to pass through and significantly reducing drying time. Completely removable upholstery with fabrics from the Open-air collection. Covering is recommended in case of rain. Made in Italy.
