

Dehli

Design: Wave Murano Glass

Description

Dehli is the name of this exquisite set of two handcrafted vases, meticulously made from authentic Murano glass. Drawing inspiration from timeless elegance and artisanal excellence, each piece showcases the distinctive rigadin pattern, a traditional ribbed texture that adds both visual rhythm and tactile sophistication.

The beauty of the Dehli collection lies in the interplay between this refined pattern and the thickness of the pure glass, which together create mesmerizing light refractions and shimmering highlights. Whether placed together or individually, these pieces bring sculptural beauty and luminous character to any space. Made in Italy.
