

Pizzicato

Design: Wave Murano Glass

Description

Pizzicato is a sophisticated Murano glass collection where contrast takes center stage. These exquisite "Incamiciato" vases are crafted by layering two rich shades of colored glass, separated by a delicate white veil, resulting in a beautifully opaque finish of remarkable depth.

Each piece is pressed in a traditional "balloton" mold, giving the surface its signature Venetian texture, an intricate pattern that catches and reflects light with a subtle sheen. Elegant, sculptural and full of character, These vases are a refined fusion of classic craftsmanship and modern design. Made in Italy.

Dimensions
