Design: Wave Murano Glass

Description

This exquisite set of two Murano glass vases is entirely handcrafted by skilled artisans. Each piece is formed through a meticulous layering process, multiple layers of glass are blown and shaped with precision, then artistically split at the top into two opposing curves, evoking the organic elegance of a celery stalk.

The fluid form captures and refracts light beautifully, while the vibrant, nuanced colors, achieved through subtle layering, glow with a luminous inner life. Perfect for bright, airy interiors, these elegant vases are designed to magnify their chromatic richness when placed near natural or directional light. Made in Italy.

Dimensions

Set of 2:

2 x ~13³/₄ - 17³/₄H
